

****NEW PRODUCT****

Polyshield Clear Topcoat

Polyshield Clear topcoat is a water based non-yellowing polyurethane sealer. This sealer is water clear with exceptional clarity. It dries quickly to a hard durable finish. It is resistant to water and marring when fully cured. Polyshield is UV stable which keeps it from yellowing over time. Polyshield can be used over genuine gold, white gold, silver, imitation gold, copper, and aluminum. Polyshield is available in gloss and satin. It is non-flammable, non-toxic and environmentally safe. Do not use with patent leaf or rolls, due to the wax residue on the backing paper.

- Stir contents thoroughly, do not shake container
- Apply at package consistency, may be thinned up to 8oz per gallon with water only if needed
- May be applied by brush, or sprayed. If brushing apply in smooth even strokes, avoid over brushing
