Fall Gilding Classes in...New York City and Louisville, Kentucky!

Autumn has arrived which leaves October as the last month of 2017 for our East Coast gilding classes. Next Tuesday, Oct. 3 is the special all day intensive at the [Sepp Leaf](#) studio in New York City where we begin a series exploring the Kölner Gilding methods beginning with a study of the two-part system Instacoll. Suitable for both interior and exterior applications, Instacoll may be used on a variety of surfaces, from artist canvas boards and

panels to architectural mouldings and statuary.

During the

workshop we will also compare the brilliancy of Instacoll to the more satin tone of Oil Gilding as we discuss selecting the options for both mordants.

Following the Instacoll Workshop will be the popular three-day Traditional Water Gilding class where we cover each step of the process from preparing rabbit skin glue as a binder, gesso, and clay bole grounds to laying genuine 22k gold leaf, burnishing, and basic elements of toning a gilded surface.

There is still a spot or two for both classes so if you are inspired to join us then please do! Members of the Gilding Arts Newsletter community receive a member discount shown at the bottom of the newsletter where you can easily register through the link provided. Otherwise, look for us again in April in New York for a return of the Water Gilding class and the increasingly popular Gold Leaf Gilding for Works of Art on Canvas, Paper, and Panels...

a Study for Fine Artists

Meanwhile... October 21 and 22 brings us to the [Art Sanctuary](#) in Louisville, Kentucky for the one day Gold Leaf Gilding for Works of Art workshop followed by a one day introduction to Traditional Water Gilding for those who wish to get their feet wet with this ancient technique for gilding wood, whether for frames, furniture, or wood panels for Fine painters.

For a sneak-peek at 2018, the [Sepp Leaf](#) sponsored Gildingstudio classes will continue branching out to other cities through our Educational Outreach program. The first of these additional locations will be a week-long event April 9-13, 2018, hosted by Owner and Principal Conservator Amber Harwood at [Georgian Bay Art Conservation](#) in Owen Sound, Ontario. This very special week begins with the three-day Traditional Water Gilding class followed by a two-day Introduction to Gold Leaf Gilding Restoration. Classes may be taken separately or the full week. Space will be limited to about ten students so early registration is encouraged. Inquiries may be sent to me directly to charles.studio@usa.net.

Workshop details will be announced through the upcoming issue of the Gilding Arts Newsletter when we return to part II of the series on Gustav Klimt (The Seccession)!

Kölner Gilding Methods:
Instacoll Gilding System

First in a series of Kölner's contemporary gilding methods! Instacoll achieves a high level of brilliancy without the need for traditional burnishing and may be used on a variety of properly sealed surfaces for both interior and exterior objects including wood, plaster, and metal.
